M4PLUNGE

small backyard pool | short step for large splash and aqua play space

1 X HYDROJET 3HP PUMP

2 X SWIM JETS

SV2 SMART CONTROL

STANDARD FILTRATION (upgrade option to clearzone or ozone)

3KW HEATER

HEAT PUMP READY (choose upgrade size)

A better alternative to the backyard swimming pool for fast installation aqua splash & play. No excavation required and smaller body of water for easy water care and lower cost heating

Wide, shallow entry step is perfect for toddlers to gain confidence as they play in the shallows. Large pool fun and zplay space for a 4.0m swimming pool

You can walk, stretch or run as your body is challenged from all directions by the swim jet pressure and movement of surrounding water

Maintain mobility and assist rehabilitation from injury safely as you're supported in a weightless state by the warm, bouyant water

Heat&cool pump

Spanet Heat Pumps are the most environmentally friendly and energy efficient spa heaters available in Australia.

Combined with our holistic approach on building energy efficient spas, you will experience savings of up to 75% over conventional electric heaters. *(customisation option)*

Simple water care

We care how you feel in our spas, so we've created water care systems which take care of this for you.

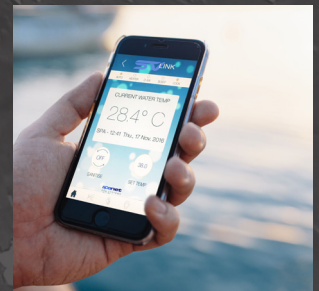

'How hard is it to keep spa water clean?' This is one of the most common questions asked by our customers so we offer the two best systems, Clearzone and Purewater CD Ozone, to maintain crystal clear spa water. *(customisation option)*

smartTOUCH digital touchpad

Large 4.3" viewing area, optimised for use outdoors, the anti-glare and anti-reflective screen is easy to use with wet or dry hands.

With software tailored for use with your Sapphire Spa, intuitive menus let you take control of every function with ease. *(customisation option)*

mySpaLINK

Control your spa from anywhere in the world.

The mySpaLINK module and 'app' allow you to connect to and take control of your spa, locally or remotely via a WiFi, 3G or 4G network, providing access to your spa from any location at any time *(customisation option)*
